

Deactivate Slack User Accounts – Readme

Bot Overview

This bot performs the following:

- Over time, people may come and go from Slack. Some may leave on their own, but as an owner or admin, you have the ability to deactivate members' accounts.
- This bot's functionality is to deactivate all the Slack accounts given in a text file with comma(,) separated and in a new line for every record
- Your role in Slack will determine your deactivation permissions.

Prerequisites

- Automation Anywhere Enterprise Above Version 10.7x

Installation

- Download the bot from Bot Store.
- Double click on the .msi file.
- On Welcome to Installation wizard, click Next to continue.
- Click I agree to the terms in the license agreement radio button to accept the agreement.
- Get/Copy the License key from Bot Store Downloads into License Key, click Next to continue.
- Click Install to begin the installation.
- Click Finish to complete the installation.
- To view the installation, go to 'My Tasks' folder on AAE Client to see bot files.

Uninstall

- Open Add/Remove Programs -> Select the Bot/Digital Worker to be installed
- Click uninstall

Creates the following folder structure of the content in the AA Dir:
