

# Pensions & Investments Best Places to Work 2018 Award Criteria

Pensions & Investments partnered with Best Companies Group, and independent research firm specializing in identifying great places to work, to conduct a two-part survey process of employers and their employees. Pensions & Investments named 69 firms as Best Places to Work in Money Management. Criteria consisted of evaluating each nominated company's workplace policies, practices, philosophy, systems and demographics (approximately 25% of evaluation). The combined scores determined the top companies.
