

Dear Supplier Partner,

We are pleased to communicate our continued partnership with C2FO, a global leader in working capital solutions, to provide a secure online platform that enables you to have your invoices paid early by Intel. This optional program has been live at Intel since 2016 and has allowed over 2,500 Intel suppliers to manage their cash flow better.

Through the C2FO platform, you can submit a discount on one or all of your approved invoices with us, and if your offer is accepted, we will initiate early payment on the next immediate payment run. Payments still come from Intel using your current payment method **with no change to existing terms.**

The Intel Early Payment Program is simple and has many advantages, including:

- Access to cash flow whenever you need it
- Lower cost than traditional sources of funding in many cases
- No changes to existing payment terms
- No maintenance fees and no paperwork to complete

There is no cost or obligation when you activate your C2FO account. It merely allows you to see how C2FO could improve your company's cash flow and save you money. The program allows you to determine which invoices to discount and how much of a discount to offer, so you're in complete control.

To learn more about the program, activate your account, and see other suppliers' experiences, please visit <https://intel.c2fo.com>

Thank you for your continued partnership with Intel.
