Dear McKesson Pharmaceutical Supplier:

McKesson appreciates the strong relationships we have with our partners and we are committed to looking for ways to innovate and deepen the services and offerings we provide. We are excited to offer our suppliers access to [McKesson C2FO](#), a program designed to accelerate the payment of our supplier invoices through the secure C2FO marketplace.

How McKesson C2FO Works

McKesson has collaborated with [C2FO](#) to provide you – our valued business partner – with the option to accelerate the payment of approved invoices on demand. This program allows you to receive early payment directly from McKesson. McKesson C2FO provides flexibility by letting you determine your early payment offer at a rate that makes sense for your business. Then, if your offer is accepted, McKesson will initiate early payment within 48 hours of market clearing.

McKesson C2FO is a voluntary program that can deliver significant benefits, including:

- Additional working capital funding option at competitive rates
- Lowered days sales outstanding (DSO)
- Scheduling receipt of payment directly from McKesson to optimize cash flow and increase liquidity
- Reducing your cost of borrowing
- Creating visibility to McKesson approved invoices in a secure online environment
