Dear Valued Supplier,

As a preferred vendor to Newmont, I am pleased to inform you of our C2FO programme which is designed to provide flexibility to your cash flow management activities. Since 2017, we have partnered with C2FO to facilitate accelerated payment of approved supplier invoices via the secure C2FO marketplace.

The simple to use platform offers fast, flexible access to capital at your choice and we hope you will give it full consideration. With C2FO, you can Name your rate™ for advanced payment on your approved invoices. For a small discount, you can receive early payment directly from Newmont to improve your cash flow and lower the cost of working capital.

A feature of C2FO is the ability to choose the invoices you want paid early and determine your early payment offer, so you're in control. When your offer is accepted, Newmont will initiate early payment on the agreed early-payment date.

C2FO is rapidly expanding as suppliers realise its money-saving advantages and simplicity:

- **EASY:** Unlike bank financing solutions, there is no credit checks or financials required
- **LOW COST:** Creates a new working capital option at a rate you choose
- **FLEXIBLE:** Eliminates paperwork and contracts with on-demand access
- **USEFUL:** Lowers days sales outstanding (DSO)
- **SECURE:** Provides secure access to view your approved invoices
- **HELPFUL:** Gives you world-class support Monday - Friday
- **SIMPLE:** Offers easy access account activation and your payment process doesn't change

While we believe the Newmont C2FO program is a great, supplier-friendly option for optimising your working capital efficiency, the final decision to use C2FO is yours. There is **no cost or obligation** when you activate your C2FO account, it simply gives you the opportunity to see how C2FO could improve your business.

If you decide not to establish a C2FO account, your Newmont invoices will continue to be paid on the original pay date.

You may activate your C2FO account now or at your convenience.
