

Dear valued supplier,

We are pleased to announce that we have partnered with C2FO, a global leader in working capital solutions, to provide a secure online platform that enables you to receive early payment on your outstanding invoices with us ("Singtel Early Payment Programme").

Using the C2FO platform, you have an opportunity to suggest a discount on one or all of your outstanding invoices with us. If your offer is accepted, the invoice payment date will be updated to an earlier date and you will receive your invoice payment, after discount and before the original invoice due date. This early payment will be initiated on the next immediate payment run. You will receive early payment on your outstanding invoices using your current payment method.

The Singtel Early Payment Programme is simple and has many advantages:

- Access to cash flow whenever you need it
- Lower cost than traditional sources of funding
- No changes to existing payment terms
- No maintenance fees and no paperwork to complete

The best part about the Singtel Early Payment Programme is that you are in control; i.e. you determine which invoices to discount and how much of a discount to offer.

To learn more about the Singtel Early Payment Programme and activate your account, please visit **singtel.c2fo.com**.

If you have any further questions on the programme please feel free to contact the C2FO Singapore Team at +65 3138 3843 or 800 852 6333.

Thank you for your continued partnership with Singtel.
