

Carbon Controls Ltd – Authorized ABB Value Provider (AVP)

Carbon Controls is honored to announce our authorization as a Technical Channel Partner of ABB Drives and Electrical Solutions for ABB Motion. Channel partners are carefully chosen by ABB to deliver specified products and services that provide the best solutions and customer experiences. Carbon Controls has earned the privilege to use the ABB Value Provider (AVP) label; bringing to our mutual clients the highest quality of products and consistent services.

Being recognized as an AVP allows us access to ABB's portfolio of solutions. One of these solutions is Ability Mobile Connect which provides customer support from anywhere. Enabling remote commissioning & troubleshooting so that onsite presence is not always necessary. ABB Ability Mobile connect also includes features such as chat, voice messaging, receiving, videos and pictures, parameter change proposals, parameter backups, and support package exchange.

As an Authorized ABB Value Provider, we are able to enhance customer engagement while delivering superior sales, support, & services. Our Sales Team invests significant time in attending ABB training, to offer our customers excellent technical knowledge about ABB products and support for all their Drive needs.

You can find us listed in Calgary, AB Canada on ABB's where-to-buy page at www.abb.com/searchchannels
