

TRAK RACER

REFINED GAMING

YOUR DREAM RIG IS HERE LET'S GET STARTED

TRAK RACER LITE GAMING PC

01

CAREFULLY UNPACK YOUR PC

To ensure safety in transit we pack foam inside our PCs. Please remove the side panel glass and take out the foam before powering on your PC.

02

CONNECT YOUR MONITOR

Connect your monitor to the graphics card, usually located in the area highlighted in red (see example). We recommend you use a Display Port cable for the best performance.

03

CONNECT YOUR PERIPHERALS

Please ensure to screw in the Wi-Fi antenna (in the accessories box). The points for the Wi-Fi antenna are usually gold and can be found in the area highlighted in orange (see example).

04

SETUP WINDOWS

When you first power on your PC, follow the on-screen prompts to create your Windows account.

05

INSTALL STEAM

To start gaming, follow the link to Steam [HERE](#). Download and install the Steam client.

NOW YOU'RE READY TO START!
