

HIGH CAPACITY GOOD BUDDY® II RODDER

We've taken the trusted Good Buddy II and made it even better! Now available in 800' and 1000' lengths, the High-Capacity Good Buddy II increases productivity while occupying less truck space than current 1000' units.

The Good Buddy® II has increased rod length for longer runs. Oversized wheels support weight of longer rod. The Good Buddy® family of rodders will rod or fish conduit 2-4 in. in diameter. Jameson offers a comprehensive Good Buddy® family to meet various applications for 3/8 in. rod, including manhole-to-riser, riser-to-riser, cable vaults & large conduit runs. Round, flexible rod slides easily over wires in occupied conduit. Exceptional bending strength for maneuvering tight turns. Will not kink. Accessories attach to rod for greater versatility and easier fishing.

- 3/8-inch diameter fiberglass rod marked every 5 ft.
- New High-Capacity Reel; Standard Good Buddy II frame
- Ideal for 2" – 4" conduit
- 7" Bend Radius
- 1,000-lb Pull/Tensile Strength
- Frame handle and all-terrain wheels for transport
