

PRUNERS, LOPPERS & SHEARS

PROFESSIONAL-GRADE TRIMMING & PRUNING TOOLS

PROFESSIONAL 27" BYPASS LOPPER

Jameson's professional-grade loppers offer precise cuts, ease of use, and lasting performance, crafted with top-quality materials.

- Ultra-sharp blade for healthy pruning.
- Non-stick coating ensures smooth, rust-free cuts.
- Aircraft-grade aluminum frame for strength.
- Cushion grips and shock absorber reduce fatigue.
- Positioning tooth prevents branch slippage.

Part Number	Description
HL-BP203	Professional 27" Bypass Lopper

HEAVY-DUTY 32" GEARED BYPASS LOPPER

Jameson's professional-grade heavy-duty loppers are built for precision, ease of use, and durability with high-quality materials.

- Ultra-sharp blade for healthy pruning.
- Non-stick coating for smooth, rust-free cuts.
- Lightweight aluminum frame for overhead use.
- Cushion grips and shock absorber reduce fatigue.
- Built-in hang holes for easy storage.
- Compound lever and gear tech boost cutting power.

Part Number	Description
HL-BP202	Heavy-Duty 32" Geared Bypass Lopper

HEAVY-DUTY 29" BYPASS LOPPER

Jameson's professional-grade heavy-duty loppers offer precision and durability with user-focused design and quality materials.

- Ultra-sharp blade for healthy pruning.
- Non-stick coating for smooth, rust-free cuts.
- Lightweight aluminum frame for overhead use.
- Cushion grips and shock absorber reduce fatigue.
- Built-in hang holes for easy storage.

Part Number	Description
HL-BP201	Heavy-Duty 29" Bypass Lopper

HEAVY-DUTY 23" HEDGE SHEARS

Jameson's professional-grade heavy-duty hedge shears offer precise cuts, easy use, and lasting performance, made with top-quality materials.

- Ultra-sharp blades cut to the tip.
- Non-stick, rust-resistant.
- Cushioned grips reduce fatigue.
- Hang-holes for storage.
- Lightweight frame cuts dense branches.

Part Number	Description
HS-SBP100	Heavy-Duty 23" Hedge Shears

ANVIL PRUNING SHEARS

Jameson's professional-grade heavy-duty pruning shears offer precise cuts, easy use, and lasting performance, crafted with top-quality materials.

- Ultra-sharp anvil pruner for dry branches.
- Non-stick coating for smooth, rust-resistant cuts.
- Durable aluminum frame for lasting performance.
- Ergonomic grip for M/L hands.
- One-hand blade lock/unlock.

Part Number	Description
PS-AN100	Anvil Pruning Shears
PS-BG010	Leather Holster for Pruning Shears
PS-AN110	Anvil Pruning Shears with Holster

BYPASS PRUNING SHEARS

Jameson's professional-grade heavy-duty pruning shears offer precise cuts, easy use, and lasting performance, crafted with top-quality materials.

- Ultra-sharp bypass blade for clean live growth cuts.
- Non-stick coating for smooth, rust-resistant cuts.
- Durable aluminum frame for lasting performance.
- Ergonomic grip for M/L hands.
- One-hand blade lock/unlock.

Part Number	Description
PS-BP100	Bypass Pruning Shears
PS-BG010	Leather Holster for Pruning Shears
PS-BP110	Bypass Pruning Shears with Holster
