

TELECOMMUNICATION INSULATED HAND TOOL KIT

JT-KT-04715

INSULATED TOOLS

**MAXIMUM SAFETY.
MAXIMUM DURABILITY.**

Meets The International Standard For Live Line
Working IEC 60900:2018 and ASTM F1505

LIFETIME WARRANTY ON TOOL AND INSULATION.

The only manufacturer to insulate its tools with Nylon Thermoplastic. The strength of our insulation means it will never wear out, giving years of use from your tool which saves on cost and improves time effectiveness.

NYLON THERMOPLASTIC INJECTION MOLDING

Increases tool safety and durability. The unique Nylon Thermoplastic injection molding process leads to a stronger, tougher and safer insulated tool than a PVC dipped or sleeved product.

TOOL AND INSULATION BOND AS ONE

Every tool is 100% inspected - tested to 10,000 volts / rated to 1,000 volts and withstands temperature extremes from -40° F to 158° F (-40° C to 70° C)
