

INTRODUCING JAMESON JA-14 CUT-SAFE PRUNER

PROFESSIONAL-GRADE JUST GOT BETTER

Our newly optimized linkage and blade geometry guarantee complete retraction when the blade is not in use, minimizing the risk of accidental cuts and protecting your valuable equipment. This design enhances pruning efficiency by providing a clear, unobstructed path. Plus, the improved cast aluminum body offers lightweight strength, ensuring every cut is both efficient and dependable.

**IMPROVED CAST
ALUMINUM BODY**
for light weight strength

**FORGED STEEL
COMPONENTS**
for durability

RAISED HOOK EDGE
reduces blade drag

**ENHANCED BLADE AND
LINKAGE GEOMETRY**
removes the opportunity for accidental
cuts, while increasing capacity

Below are the products featuring the New Cut-Safe Pruner, engineered for superior safety and performance.

Part Number	Description
JA-14	Fixed Pulley Pruner, 1.25" cutting capacity

Part Number	Description
JA-14S	Swivel Pulley Pruner, Swivel versatility in pull direction and more leverage with less pressure on pulley arm. 1.25" cutting capacity

Part Number	Description
JA-14DP	Double Pulley Pruner provides additional leverage and significant reduction in required pulling force. 1.25" cutting capacity. Adapter included.

Part Number	Description
PH-14-PKG	JA-14 Pruner, Adapter & Rope

Part Number	Description
P-14-A	JA-14 Pruner & Adapter

Part Number	Description
PH-14S-PKG	JA-14S Pruner, Adapter & Rope

Part Number	Description
P-14-AS	JA-14S Pruner & Adapter

Part Number	Description
JA-14DP-PKG	JA-14DP Pruner, Adapter & Rope

Part Number	Description
PH-14-PKG-BR-RWB	JA-14 Fixed Pulley Pruner Kit with Premium Bumpy Rope, Red White Blue
