Hardware Kit for GPRO Pump & Meter Combos

ISSUE

A group of GPRO Pump and Meter Combos were manufactured with 90° outlet adapters which require hardware kit 139500-21 for proper installation of the meter. The incorrect hardware was included in the box with the product. This hardware kit provides the proper length of fasteners and correct size of o-ring necessary for safe and leak free installation of the fuel meter.

MODELS AFFECTED

Products manufactured 03/01/23 to 03/08/2023

503000-70	PRO20-115PO/QM40G8N
503000-71	PRO20-115AD/QM40G8N
503000-83	PRO20-115AD/M30-L8N, 14' HOSE
