AIR SUSPENSION | GEN3  
AVAILABLE

**14" I-Beam Frame**  
The L3 features a stout 14" x 22 lb. I-beam main frame. It doesn't stop at the frame, the 14" beam is used throughout the neck, risers, and dovetail giving the L3 the strength to stand up to heavy-duty hauling.

**Pierced Beam Cross-Members**  
We plasma cut our I-beam main frame allowing the 3" channel crossmembers to pass through the I-beam frame which lowers the deck height.

**Dexter Axles**  
Dexter is the undisputed leading manufacturer of trailer axles for over 50 years. Their American made axles are known for safe, reliable, and smooth performance.
