

ENWORK

Foundation Drum Bases

Defined by its gentle silhouette, Foundation Drum celebrates soft curves and graceful profiles to form a singular base with elegant spirit. Ideals of simplicity and structural form blend touches of architectural intrigue with commercial endurance for a seamless balance between design-centric seating or expansive collaborative environments.

Tapered Drum Base Details

- Standard height is 27.75" (29" with 1.25" top)
- Base includes plinth and levelers
- Base includes ballast weight
- Optional power/data integration
- Optional Access Door for cable management
- Bottom of base is open for cable management
- Finishes include solid-color laminate or veneer

Tapered Drum Sizes

Foundation Tapered Drum Bases support round top diameters from 36–96" on a single base, and conference tops up to 60"D x 144"W on multiple bases.

Base dimensions range from 20–48" diameter depending on top size.
Taper varies depending on top size. See next page for details.

Combine multiple Foundation Tapered Drum bases for conference applications.

Power/Data Options

For 36–48" dia. Round Tops and 36"–42"D
Conference Tops (20" Base)

- Axil
- Node
- Satellite

For 54–72" dia. Round Tops and 48–60"D
Conference Tops (24–36" Bases)

- Axil
- Ellora Single-Sided
- Ellora B
- Node
- Satellite

For 84–96" dia. Round Tops
(42–48" Bases)

- Axil
- Ellora (except 6 power units)
- Ellora B
- Node
- Oasis 6 power units (15" unit)
- Satellite

Power/Data Integration

Access Door for Cable Management

Tapered Drum Top & Base Sizing

Taper angle varies depending on top size.

Drum Base Internal Diameters

Base Size	Top Internal Diameter	Bottom Internal Diameter
20"	6"	10"
