

A row of modern wooden universal lockers in a hallway. The lockers have a light wood grain finish and black handles. They are mounted on a dark base with light-colored legs. The hallway has a light wood floor and a white wall on the left. A glass partition is visible in the background.

ENWORK

Universal Lockers

Enwork's Universal Lockers offer secure personal storage, perfect for an evolving work environment. Whether it's a shared workspace with unassigned seating or simply a smaller floorplan, Universal Lockers offer flexibility in an ever-changing work space.

Bar Pull

Ligouri Pull

Mechanical Lock
(ADA Accessible)

Electronic Lock

Enwork lockers feature Digilock mechanical and electronic locks. Digilock is one of the most trusted brands in locker security, and offers incredible expertise in this product category. Locks are inventoried at Enwork, reducing supply chain complexity and to help ensure quick lead times. Enwork has access to all Digilock products, as well as products from other brands.

Important to note: Electronic Locks require a manager key and programming key to reset locks if codes are forgotten or lost. Mechanical locks also require a manager key and reset tool to reset locks. These keys are sold separately, and are required for setup and maintenance. Connect with Enwork Customer Care or Design Team for more information.
