

Ultra-Deluxe Toolkit

MPSK-XL

This Kit Includes:

The On-Air!™ Podcast Kit:

(1) USB Omnidirectional/Cardioid Podcasting Microphone with Desktop Stand

This portable USB Type-C Multi-functional Microphone provides the versatility and flexibility needed to do quality broadcasts, from nearly any location, with clear, rich sound. Compatible with Windows or Mac.

(1) Round Microphone Windscreen/Pop Filter

Provides noise-protection, helping you get better audio recordings. The 360° flexible gooseneck arm allows precise positioning and the swivel mount is easy to install.

(1) Folding Sound Isolation Shield

Makes clean, controlled, and noise-free recordings, reducing unwanted room noise. Compact, portable, lightweight, foldable design. **Includes stand and base for the Isolation Shield.**

(1) Portable Podcast Mixer Production System

This Portable Podcast Mixer Production System is ideal for live streaming, podcasting, recording, chatting, broadcasting, gaming, guitar and is compatible with PC, Mac and smart phones. All of these great features make this mixer system ideal for almost any user, at any age. Features 7 customizable jingle pads, noise reduction, multi-channel streaming, 6 reverb modes, 4 preloaded audio effects, and more! Fully control your recorded podcasts for professional results!

(1) SuperFlix™ 720p HD Webcam with Steel-Reinforced Gooseneck Stand

This easy-to-use webcam features a microphone, non-slip base and a bendable gooseneck that allows for positioning in almost any direction and provides excellent voice pick-up and clear recordings. Features 1080x720 resolution, 30 FPS and ¼" HD CMOS imaging sensor. Easy Plug & Play setup – For Mac or PC.

(1) ActionPro™ Camcorder

This is a full, high-definition 20MP Digital Video Camera that is slim, sleek and easy-to-use. ActionPro™ is the perfect video camera for any age. Features 2.7K HD 2688x1520 resolution, a 30 megapixel, 8.0M CMOS sensor, 18x digital zoom and a rotating 3" IPS screen viewer progressive scan.

(1) External Mic for Camcorders and SLR Cameras

Easily mounts to camcorders and SLR cameras and is designed to improve sound recording quality with its high performance super-cardioid pickup and dual-head technology for long pickup distances (approx. 12'), NCR Noise Reduction Technology, wide frequency responses, and an external +20dB sensitivity enhancement switch.

(1) Octopus Mini-Tripod Camera Stand

This flexible, highly durable mini-tripod camera stand bends and flexes into any position! With 360° rotation capability, it is the ideal choice and accommodates most cameras. Includes easy-slide adapter for camera and smartphone.

(1) 9' x 60" Green Screen Backdrop Cloth

Perfect for chromakeying (filming in front of a pure-colored screen, typically green then replacing it with any scene or background to achieve special effects). Highly saturated for accurate color-balancing.

(1) "I Can Present" Editing Software

Powerful green screen editing software with teleprompter, split screen, picture-in-picture, scroll text features, chromakeying and more.

(1) "I Can Animate" Stop-Motion Editing Software

Capture from any camera (WEBCAM/HDV17BK) to create stop-motion animations, import audio and video clips, use time-lapse feature, draw shapes, mask, and make titles, subtitles and credits like a pro.

(1) Plastic Carry Case

Easily store and transport kit items (not all items fit in the LCP case).

Note: Plastic Carry Case color is subject to change without notice.

Shipping: 18 lbs.; 21" x 16" x 12"
Warranty: 1 year

ultra-deluxe kit

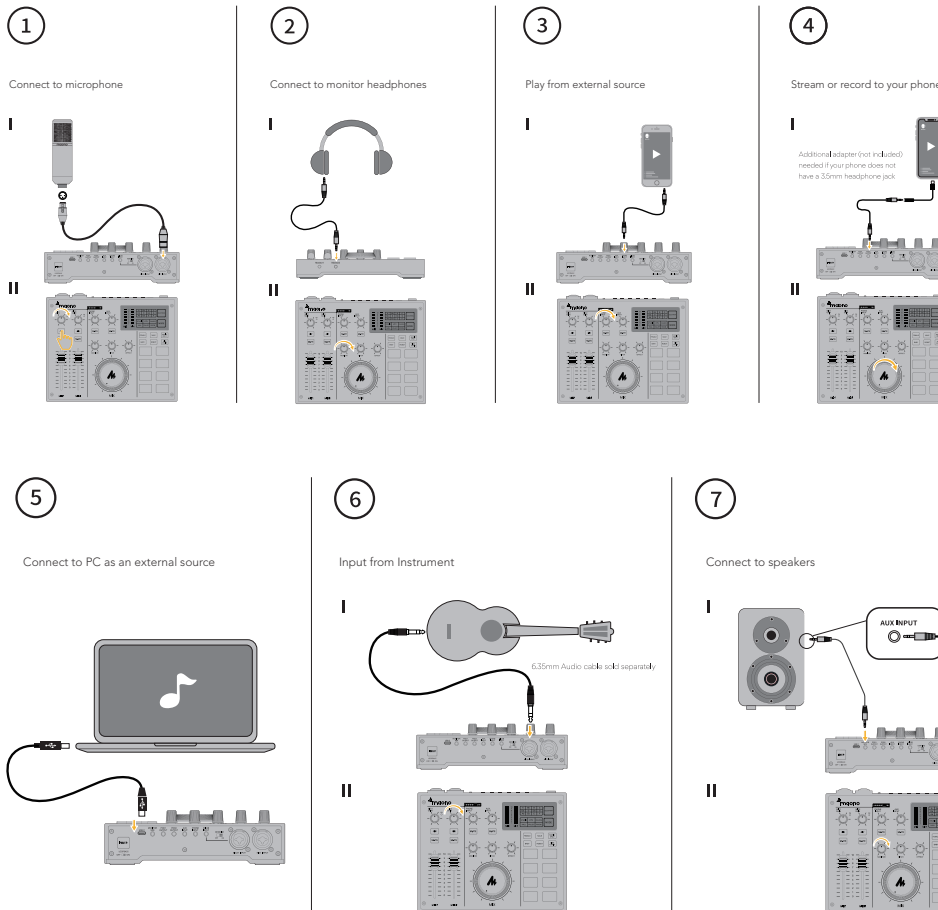

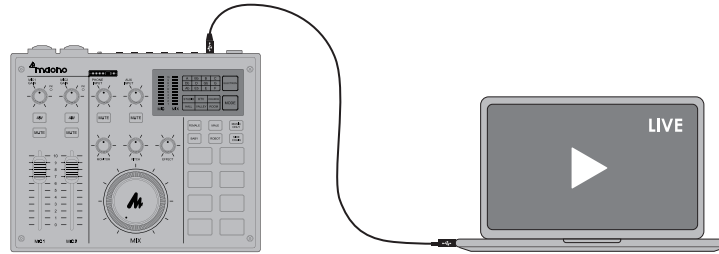

For Pro Podcasting and Recording!

Ultra-Deluxe Toolkit

MPSK-XL

The Portable Podcast Mixer Production System greatly simplifies the podcast production process by integrating several digital audio mixing components into one comprehensive solution. It is very easy to set up and use in any room to record or broadcast live. It delivers superb sound quality and offers intuitive and full control that suits the needs of both beginners and seasoned broadcasters.

It offers four channels of audio mixing and easy connections to microphones, smartphones and other sources. It uses advanced engineering that allows the user to control the sound levels and add live vocals and sound effects through a comprehensive set of tools to avoid difficult post-production and editing.
