# Interview Kit #3 – Ultra

**MPSK-INT3**

The **Portable Podcast Mixer Production System** greatly simplifies the podcast production process by integrating several digital audio mixing components into one comprehensive solution. It is very easy to set up and use in any room to record or broadcast live. It delivers superb sound quality and offers intuitive and full control that suits the needs of both beginners and seasoned broadcasters.

It offers four channels of audio mixing and easy connections to microphones, smartphones and other sources. It uses advanced engineering that allows the user to control the sound levels and add live vocals and sound effects through a comprehensive set of tools to avoid difficult post-production and editing.
