

LOW PROFILE ROLLERS

4" IPS - 18" IPS (100MM - 450MM)

McElroy's Low Profile Rollers are a modular pipe roller designed to make pulling 4"IPS — 18" IPS (100mm — 450mm) diameter thermoplastic pipe easier and to minimize drag on the pipe. Perfectly paired with other McElroy productivity enhancing tools, such as the PolyHorse[®], the rollers are tip-resistant, allow for curved pulls of pipe over considerable distances and provide no resistance to external fusion joint beads moving across the roller.

The Low Profile Rollers can be ordered from McElroy's worldwide network of distributors and are packaged in a "nested" crate that contains 40 complete roller assemblies.

STANDARD FEATURES

- ✓ Minimizes drag on the pipe
- ✓ Allows for curved pulls
- ✓ Rolls easily, increasing productivity
- ✓ Keeps pipe clean and off the ground
- ✓ Sealed ball-bearing construction
- ✓ Compact storage
- ✓ Tip resistant
- ✓ Minimizes pipe damage
