 MDEmails™

Open the Door to Physician Referrals

EMAIL MESSAGES DELIVERED TO HEALTHCARE PROFESSIONALS QUICKLY AND COST EFFECTIVELY

Use MDEmails to compliment your existing physician outreach programs. Access your local physician network in and around the community you serve. MDEmails is an email design and delivery service used to reach out to the physicians in your service area to get your digital foot in the door. We craft the emails and link each email back to **YOUR** clinic's website. Once the campaign ends we are then able to generate a monthly engaged physician's mailing list for follow up.

FLAT RATE PACKAGE
