Schuylkill Haven Youth Softball Association Suggested Safety Equipment

USA softball along with the Schuylkill Haven Youth Softball Association wants to keep girls safe while enjoying softball. A helmet with face guard is mandatory when batting or running the bases. All catchers will wear proper catchers gear when catching behind the plate. The SYHSA will provide bats, helmets, and catching gear for all participants.

The SHYSA would also like to let parents know additional safety equipment that is not mandatory but also available. The league will not provide this equipment but you may purchase and use as you feel necessary.

1. Fielders face mask
2. Elbow guard
3. Sliding pants
4. Mouth piece
5. Chest protector (non – catching)
6. Batting gloves

Each player may also use their own personal bats and helmets as long as they are USA Softball approved equipment.
