

# Unplanned Pregnancy? Need Help?

Call or Text the national Option-Line

# 800-712-HELP (4357)

## Local Pregnancy Resources

*Local pregnancy centers typically offer free services such as pregnancy tests and ultrasounds. Most also offer post-birth assistance with practical needs such as diapers, formula, clothes, etc. In addition, many offer counseling and life skills needed to help with babies after birth. Some also offer post-abortive counseling and healing programs. These centers are staffed by nurses and volunteers who want the best for you and your baby!*
