

### **Pro-Life Signs**

Although it is not required to hold a sign while praying/witnessing outside Planned Parenthood, you may do so. You can purchase 40 Days for Life pro-life signs at their store, <http://www.40daysforlifegear.com> or from any pro-life store. If you prefer to make your own sign, please follow the Guidelines for Pro-Life Signs, below.

### **Guidelines for Pro-Life Signs**

Please remember that 40 Days for Life is a peaceful, prayerful vigil and not a protest. All signs should bear positive and encouraging messages and/or images.

When making your sign, remember that most people will be reading your sign as they drive by. To make your sign visible to passersby, consider using contrasting colors for the background and the lettering.

Lettering must be readable from a distance. A good rule of thumb is every 1 inch of letter height provides 10 feet of readability with the best impact. For example, 3" tall letters make the best impact within 30 feet. Be sure to choose a bold style font that is easy to read (not a thin or script font) and be sure to leave sufficient space between letters for the best impact.
