Unplanned is the inspiring true story of one woman's journey of transformation.

All Abby Johnson ever wanted to do was help women. As one of the youngest Planned Parenthood clinic directors in the states, she was involved in upwards of 22,000 abortions and counseled countless women about their reproductive choices. Her passion surrounding a woman's right to choose even led her to become a spokesperson for Planned Parenthood, fighting to enact legislation for the cause she so deeply believed in.

Until the day she saw something that changed everything, leading Abby Johnson to join her former enemies at 40 Days For Life, and become one of the most ardent pro-life speakers in America.

Unplanned is the most important movie you'll ever see on the most controversial issue of our time. No matter which side of the fence you're on, no one will leave this film unmoved.

Permission for Minor to view UNPLANNED Movie

Dear Families,

UNPLANNED brings us an eye-opening look inside the abortion industry from a woman who was once one of its most passionate advocates. Due to some mature content this movie has been rated R by the Motion Picture Association of America for brief violence, which abortion is by nature. It's a brief CGI *simulated* abortion only, similar to what Abby Johnson saw. Any young person **under 17** unaccompanied by a parent or guardian must present a signed permission slip from either.

I, _____, give my permission for _____
(Parent or Guardian's name) (Name of youth)

to watch the movie, *Unplanned*.
