

Maternal Health

Hearing the words from your doctor, "*Your baby may not live*" can be devastating and seem hopeless. But your baby's life *does not* have to end at the abortion clinic... There *is* love and community support for the whole family!

AZ Abortion Laws

- Minors must have parental consent.
- You cannot be coerced into having an abortion. (Help is available if you're not safe!)
- You must be given information 24 hours in advance, about abortion risks, alternatives, gestational age and physical characteristics of your preborn child.
- You must be given information 24 hours in advance, about available support, including perinatal palliative care (if your child has a life-threatening diagnosis).
- An ultrasound must be performed 24 hours in advance, and you must have an opportunity to see the ultrasound and hear your baby's hear beat.
- Abortion cutoff: 15 weeks (up to 9 weeks for chemical abortions/RU-486 - abortion pill) Exceptions for health of mother, rape and incest.
- Arizona laws will be interpreted to value all human life, at any stage of life.
- The abortion industry will not be able to send the abortion pill through the mail.
- Remains of aborted babies will be given dignity by being buried or cremated.
- Public universities will not be able to provide or refer abortions
