

Non-Insulated Bins

Poly Combo Bins

These versatile multi-use bulk containers are ideal for the food, chemical and pharmaceutical industries. Bins provide improved inplant handling and over-the-road hauling capacities. Scientifically engineering for added strength and roto-molded with FDA-approved polyethylene, these tough, durable and lightweight bins are ideal for all types of food products and bulk materials.

Stacking lids, dust covers, regrind and natural pallet bases, and 1.5" drain plugs are available. Dumping leg: set of three per tote, stainless steel/food grade.

Standard features:

- Footprint: 48" length x 44" width
- Available in heights from 30" to 56" high
- Seamless, one piece construction
- Smooth surface, easy to clean
- Molded extra strength with proprietary resin
- Extra thick corners and base resist impact and wear
- Reinforced top edge adds strength and resists splitting
- Lighter weight, less costs, easier handling than stainless steel
- Nestable/stackable 2-high with optional lid
- Stainless steel hardware available on replaceable base
- Socket base has molded-in wear pads

Part #	Description	Capacity		Inside/Outside (inches)			Weight (lbs)
		Lbs	Kg	Length	Width	Height	
1140	Poly Combo Bin	2000	907	46/50	39/42	31/35	127
