Septic & Sewage Holding Tanks

Low Profile Tanks

Poly Low Profile Tanks

This low-profile tank is an ideal solution for wastewater or water storage where a burying depth is restricted or you have a need for a low footprint. Most of the low-pro tanks can be used both above and below ground and have excellent structural strength - check with a BARR tank specialist for which models are designed for below ground use. Risers, lids, vents and various fitting options available through BARR.

Heated/Insulated Low Profile Tanks

Our custom made insulated & heated chemical, sewage, and water holding tanks are intended for aboveground outdoor to provide freeze protection as outside temperatures drop. These tanks can be fitted with level alarms, pumps, and pump control devices to fit your application. We’ll work with you to produce the best tank for your needs.

Custom made! Contact us today.
