

# SURGE™ SPRAY APPLICATOR SYSTEMS

## 68 GALLON - ATV SERIES

- 68 USG Low Profile HDPE Tank – Translucent for easy liquid level viewing
- 6 GPM - 70 PSI On Demand Pump
- Schedule 40 PVC 4' wide spray bar mounted to a epoxy-coated steel mounting frame that attaches to a standard 2" hitch receiver commonly found on utility vehicles
- 50' commercial low temp. hose, reel, and high flow, high quality spray gun
- Spray Bar comes w/ 4 quick-change adjustable fan spray tips - 6'-7' wide spray pattern
- All above mounted on a HD High Density Polyethylene Corrosion Proof Skid that can easily be loaded and unloaded by hand by 2 people and is forklift-able as well with its pallet type base
- To operate pump from the cab a 10' Extension cord w/ on/off switch, power indicator light and standard power-point (cigarette lighter type) plug is provided so vehicle needs no special wiring
- Easy to setup and operate system designed for 15-20 Km/h (9-13 mph) travel speed.
- Compatible with any UTV / ATV with 700+ lb. carrying capacity and cigarette lighter type plug and 2" hitch receiver.

if it flows,  
we go with it™
