

LANDLORD INFORMATION

A Landlords greatest fear is when a tenant fails to pay their rent or worse yet, damages your property. The fact is, delinquent tenants like these exist and cost landlords millions of dollars each year.

TICA was created for this sole purpose. To empower Landlords and Real Estate agents by providing rental history information about your prospective tenants.

A lot like credit checks when applying for a loan or credit card, TICA provides tenancy history checks when tenancy applicants apply for rental properties.

We have over 7,000 members Australia wide who depend on the information we hold on tenants to assist them.

Members of TICA are also able to Default a tenant on its Tenancy History Database. The Default is then used to warn other Landlords and Real Estate Agents that the tenant has a negative tenancy history.

Make sure all your tenancy applicants are screened through TICA, Australia's Largest Tenant Database.

Our Services

LANDLORDS SERVICES

- ✓ Tenancy Database
- ✓ Landlords Request to List
