

Tenant Information

Your real estate agent has authorised us to collect keys to conduct a Smoke Alarm Inspection to comply with Regulations. Please find entry notice attached.

If you would like to be at home or find this date/time not suitable, please contact us to arrange a more suitable date/time by emailing bookings@1300smokealarms.com.au or call 1300 766 532.

Smoke Alarm Inspection

Government Legislation requires every rental property to have working smoke alarms and to be located in the correct positions as per the Building Code of Australia.

Inspections take 10min - 30min depending on the services we have been instructed to complete.

Additional services that may be completed include:

Corded Window Inspection

Safety Switch Inspection

Beeping Alarms

If you have Smoke Alarms that are beeping or faulting, please contact your agent first. If they are not available go to www.1300smokealarms.com.au/tenant and leave your details and a picture and/or video and we will contact you with how to rectify, disarm the alarm or when we can attend to fix.

Please Note:

- Restrain any dogs or inform us if any animals are present at the property
- Disarm any security alarms or deadlocks that will prevent access.
- Clear access to windows to attend blind cords. (if applicable)
- A calling card will be left notifying you of our attendance

Our attendance is to meet Government requirements and to ensure your personal safety.
