

PRESS RELEASE
TOWN OF SUDBURY
BOARD OF HEALTH

On Saturday, September 12, the Sudbury Police Department notified the Board of Health that they responded to a large party involving approximately 50-60 Lincoln-Sudbury High School students. It is unknown if students from other towns attended. Many of the students fled or gave false information. The police reported the students were not wearing masks or practicing social distancing. There are no known positive COVID cases involving these students at the time of this release. Due to lack of information of who attended the event and the inability to consult directly with those students, the risk to the school community cannot be adequately assessed.

As a result, the Board of Health and Lincoln Sudbury Regional School High School (LSRHS), in consultation with the school physician, collectively decided to delay in-person learning.

Both the Board of Health and LSRHS are advising COVID testing for those who attended the party and to notify the Board of Health and the school health office if students become symptomatic.

Health related questions should be sent to health@sudbury.ma.us or call 978-440-5479.

Questions regarding Lincoln Sudbury Regional High School should be directed to 978-443-9961.
