

Sudbury Center Improvement Advisory Committee  
Minutes  
April 7, 2014  
5:00 pm  
Flynn Building

PRESENT: Rich Davison, Deborah Kruskal, Jim Hodder, Larry O'Brien, Bill Place, Jan Hardenberg, Jody Kablack, Jim Kupfer

VHB had requested additional direction from the SCIAC regarding details relative to hardware, crosswalks and parking along the Town Common so that they can finalize the plans for bidding. After discussion, there was consensus for the following:

The mast arm and all signal posts would be black, semi-gloss finish, 8-fluted. All bases would simple (no spec determined). The mast arm would be arched, with no finial at the top, just a cap.

The master control box would be black, and installed at the side of the Hosmer House, with possible a 2-3 foot separation from the walkway.

Parking at town common would remain on the common side as originally designed by VHB designed. This allows more turning radius for trucks from Old Sudbury Road, and is also safer for pedestrians in crosswalk

The crosswalk at Town Hall will be increased in width to the extent it can without sacrificing a parking space. If 18' wide, it will eliminate 1 parking space so there will only be 4. It will be constructed at grade, not humped.

The 2 raised islands at Concord Rd north and in front of Town Hall on Old Sudbury Road will be gray cobble, stamped concrete.

All pedestrian crosswalks will be muted red, herringbone brick pattern, polymer, with polyurea white lines (need to meet reflectivity requirements).

The pedestrian signals will have a 16" typical illuminated sign face, with hand and man, no audible sounds, just a push button.

VHB asked about specific signage directing vehicles to the No Name Road. The group decided to remove the truck symbols from these signs, as all traffic will be directed to use the No Name Road, not just trucks.

First Parish parking – It was decided that Deborah's sketch will not be part of the VHB plans. The SCIAC will continue to work on issue. Can be completed either as a change order, or by DPW.

Landscape Plan - received proposal from Mike Coutu. Jody will speak to him about the vision for the center to see if the proposal needs to be revised.
