

If you're pregnant, you are now a Parent. Whether planned or unplanned, being pregnant can feel overwhelming. This is normal. The child you carry is developing into the person specifically designed and planned by God, with a specific purpose. As a unique person, he or she already has their own DNA, a beating heart, foundations of a brain, a spinal cord and nervous system. Later in pregnancy your baby will start copying you physically to learn what it can from its mommy.

Our Team is available to **HELP YOU** and we are your friends who care about you and your baby and you won't be left alone.

Together, we can overcome any obstacle you are facing to help you carry and care for your precious child before and after birth. Life from you is so special and that's what makes it so intrinsically valuable. This human being will become your closest friend and someone that will always be a part of you.

So, Let's have a Baby Shower!!
