

eLearning

online training development

Design courses

Our team works with representatives from all UC campuses to develop innovative and engaging online training.

Launch

In coordination with the LMS Administrator, we help get courses uploaded to the UC Learning Center.

Report

We create reports based on tracking reactions, behavior, and how many people completed trainings.

Video

production

Film

We work with you to develop a script, arrange for actors, and capture high quality footage in our state-of-the-art Recording Studio. We also offer the option to animate your videos.

Edit

Our team works closely with you to have video drafts edited and reviewed before publishing.

Publish

Lastly, we distribute the video via YouTube to be shared.
