## **Introduction**

What will you need to become a dreamworker?

How I became a dreamworker

Theory

Method

Recognition of common dream motifs

## ***Part One: Dreamworking Theory***

### **Chapter 1: Why We Should Pay Attention to Our Dreams**

The inner guide

Why is it important to know what is going on in our unconscious mind?

Why is dreamwork a good way of relating to the unconscious mind?

The benefit of ongoing dreamwork

Evidence for the effectiveness of dreamwork

Summary

### **Chapter 2: Where Do Dreams Come From?**

Do dreams arise from inside us or outside us?

The dreammaker

The dream ego

The good side of weakened ego control in dreams—anything can happen!

The dreammaker is responsive to being responded to

Characteristics of the dreammaker

Summary

### **Chapter 3: The Language of Dreams**

Do you speak dreamish?

The use of figures to ‘play parts’

Tip—write down 2-3 associations for each key figure in the dream

The use of metaphor  
The use of feelings and emotions  
The use of exaggeration and heightened urgency  
The use of figures of speech, idioms, puns, and wordplay  
Spot the figure of speech quiz  
Chapter summary  
Answers to quiz

#### **Chapter 4: Why Do People Shy Away From Doing Dreamwork?**

Negative and paradoxical attitudes towards dreams  
Negative perceptions about dreams and how to counter them  
Difficulty recognizing metaphor  
Fear of causing harm  
Do the contents of the unconscious want to be exposed?  
Feeling lost within the dreamscape  
Resistance to acknowledging the uncomfortable truths that dreams offer  
Summary

#### **Chapter 5: The Goals of Dreamwork**

The first goal– connecting the dream to your life  
The double resonance test  
The second goal– responding to the dream  
Ethical considerations in dreamwork  
Informed consent  
Summary

#### **Chapter 6: Choosing a Good Dream to Work With**

Tip–First figure out what the dream is asking for within the dream scenario itself, then translate this insight into waking life  
Qualities of a good working dream  
Coherence

Poorly remembered dreams and long rambling dreams

Tip– if you can't handle the whole dream work with one part of it

Picking out the odd part of a dream

Tip–a quick checklist for selecting a good dream to work on

Summary

## **Chapter 7: Fixed Meanings in Dreams**

What to do when the dreamer is attached to a single fixed meaning

Tip– include and expand

Summary

## **Chapter 8: What Do Our Dreams Want?**

Three advantages of considering what the dream wants

What if it is not clear what the dream is asking for?

Re-enter and explore

Find a response within the dreamscape, then translate this to waking life

Summary

### ***Part Two: A Method of Dreamworking***

## **Chapter 9: Overview of the Method**

A flow chart of the method in action

Tip– in dreamwork keep your questions clear, short, and simple

Ask questions appropriate for the step of the method you are working at

Suggested questions and phrases for dream facilitation

Clarification questions

Tip– keep SEFA in mind (Setting-Events-Feelings-Associations)

Orienting questions

Connecting questions

Responding questions

Tip– keep a list of good questions at your fingertips

What if the facilitator sees a connection but the dreamer can't see it?

Tip– what to do when you feel lost

Summary

## **Chapter 10: Catching the Dream**

Techniques for opening and stimulating the dream channel

Remembering the dream on waking

Tip–don't judge your dream while you're still half asleep

Tip–give yourself some shoreline time

Tip–watch out for water dreams

Tip–jot down or draw one thing from the dream (capture a cue)

Anchoring the dream

Tip–find out what you need to do to anchor your dreams...and do it

Recording the dream

Naming the dream

Summary–cultivate these 6 habits to improve your dream recall

## **Chapter 11: Clarifying the Dream**

Phrases and questions to use for clarification

Tip– while you clarify stay on the alert for orientation

What if the dreamer cannot make any personal associations?

Summary

## **Chapter 12: Getting Oriented**

What have you made of it so far?

Orienting by asking: 'what does the dream want?'

Dreamwork in the helping and healing professions

Orienting through recognizing a universal dream motif

Tip– an old dream may still be relevant and can be revisited

Orienting through inner and outer

Tip–ask the inner outer question for each key dream figure

Tip–some people resist the inner, some resist the outer

Internalized figures– where inner meets outer

Orienting through ‘Be the Part’

Tip– you can be any aspect of your dream

What if you are not able to identify with the part?

How do we know which part to be?

Orienting through good thing/bad thing

Tip– you do not need to know the answer to get the orientation

Orienting through dynamic/stuck

Tip– notice which comes first, the dynamic part or the stuck part

Repetitiveness in dreams

Tip– ask yourself: is there any value in this dream repeating itself?

Orienting through the body

How might a problem with your body appear in a dream?

Physical, functional, or figurative?

Some suggestions for working with dreams through the body

Summary

### **Chapter 13: Connecting the Dream to Your Life**

The difference between orienting and connecting

How do we know if the connection is ‘true’ or ‘accurate’

Tip–when working on your own dream emotional charge is the most reliable sign that you have made a good connection

Connecting through ‘highlight and ask’

Tip– keep it short and stay close to the dreamer’s own words

Connecting through feeling tones

Tip– good note-taking or a good memory is needed

Connecting through spotting a figure of speech

Summary

## **Chapter 14: Responding to the Dream**

Dialogue between ego and dreammaker

Dream-based 'homework'

Pre-connection responses

Post-connection responses

Remember the IRA (Imaginal-Ritual-Actual)

Different types of dreams call for different types of responses

Your imagination is your most powerful tool

The essential steps of an imaginal response

Responding by resolving to make a change

Responding by doing a ritual

Responding by creating something

Responding by finding a way out of a negative situation

Responding by working with a symbol that appeared in the dream

Summary

### ***Part Three: Common Dream Motifs How to Recognize Them and Work With Them***

## **Chapter 15: Overview of Dream Motifs**

Many dreams contain more than one motif

The 14 motif groups

Why motif recognition is so helpful in dreamwork

Tip– when a dreamwork session bogs down and loses energy it is usually because the central motif has not been recognized

## **Chapter 16: Shadow Motifs**

Psychodynamics of the shadow motif

Distinctive features of a shadow motif

Dreamworking suggestions for a shadow motif

Further examples of this motif

### **Chapter 17: Ego Check Motifs**

Psychodynamics of the ego check motif  
Distinctive features of an ego check motif  
Dreamworking suggestions for an ego check motif  
Further examples of this motif

### **Chapter 18: Brain Field Motifs**

Psychodynamics of the brain field motif  
Distinctive features of a brain field motif  
Dreamworking suggestions for a brain field motif  
Further examples of this motif

### **Chapter 19: Personal Spirit Motifs**

Psychodynamics of the personal spirit motif  
Distinctive features of a personal spirit motif  
Dreamworking suggestions for a personal spirit motif  
Further examples of this motif

### **Chapter 20: Family Field Motifs**

Psychodynamics of the family field motif  
Distinctive features of a family field motif  
Dreamworking suggestions for a family field motif  
Further examples of this motif

### **Chapter 21: Relationship Field Motifs**

Psychodynamics of the relationship field motif  
Distinctive features of a relationship field motif  
Dreamworking suggestions for a relationship field motif  
Further examples of this motif

## **Chapter 22: Introject Motifs**

- Psychodynamics of the introject motif
- Distinctive features of an introject motif
- Dreamworking suggestions for an introject motif
- Further examples of this motif

## **Chapter 23: Self-discovery Motifs**

- Psychodynamics of the self-discovery motif
- Distinctive features of a self-discovery motif
- Dreamworking suggestions for a self-discovery motif
- Further examples of this motif

## **Chapter 24: Rebirth Motifs**

- Psychodynamics of the rebirth motif
- Distinctive features of a rebirth motif
- Dreamworking suggestions for a rebirth motif
- Further examples of this motif

## **Chapter 25: Inspiring Contact Motifs**

- Psychodynamics of the inspiring contact motif
- Distinctive features of an inspiring contact motif
- Dreamworking suggestions for an inspiring contact motif
- Further examples of this motif

## **Chapter 26: Positive Feedback Motifs**

- Psychodynamics of the positive feedback motif
- Distinctive features of a positive feedback motif
- Dreamworking suggestions for a positive feedback motif
- Further examples of this motif

## **Chapter 27: Rogue Part Motifs**

Psychodynamics of the rogue part motif

Distinctive features of a rogue part motif

Dreamworking suggestions for a rogue part motif

Further examples of this motif

## **Chapter 28: Dreambody Motifs**

Flying motifs

Psychodynamics of the dreambody motif

Having trouble with your flying?

Falling and crashing motifs

Amazing ability motifs

Distinctive features of dreambody motifs

## **Chapter 29: Somatic Motifs**

Surrounding environment motifs

Full bladder motifs

Hunger and thirst motifs

Illness motifs

Paralysis motifs

Falling and starting motifs

## **Chapter 30: Erotic dreams**

Psychodynamics of sexual and erotic dreams

Erotic dreams featuring your own partner

Erotic dreams with guilty awareness of your own partner

Dreams of attraction to a person who is not attractive (in waking life)

Dreams of attraction to old partners

Dreamworking suggestions for erotic dreams

## **Chapter 31: Frightening dreams and nightmares**

Guidelines to help you distinguish between frightening dream figures

The big bad 8

When can we do our own dreamwork and when should we seek help?

## **A Final Word About Dreamwork**

## **Appendix 1: Useful phrases and questions for each stage of dream facilitation**

## **Appendix 2: Distinctive features of common dream motifs**
