

Connecting Climate FieldView™ and Echelon

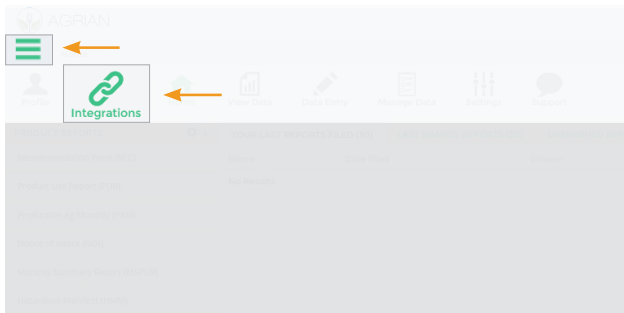

+ Data Integration Partnerships

By working with our partners through API agreements, we're able to provide you a seamless experience while in the field. Moving data between platforms is no longer a manual process. Through our partnerships, you can export data from one platform into the Climate Fieldview™ platform. Your field data will be available in just minutes — getting you back out in the field quickly and easily.

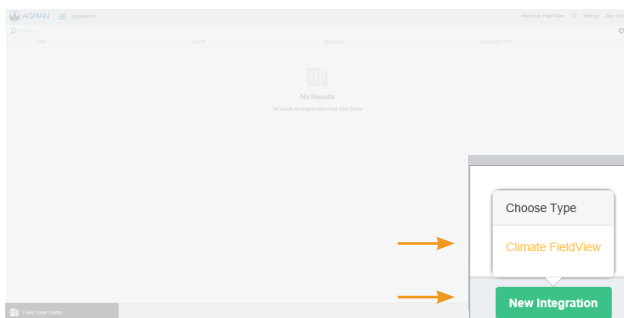

Connecting Echelon to Climate FieldView Applications

Login to www.echelonag.com

1 Select the sidebar menu, then “Integrations”.

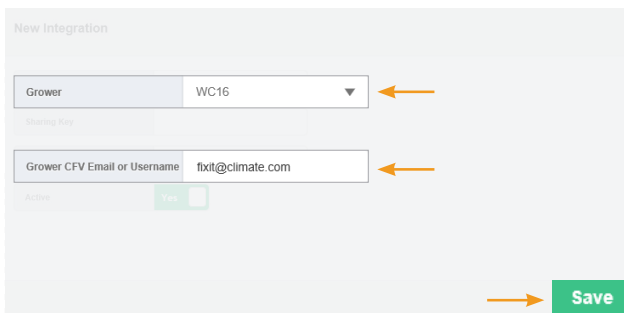

2 Select “New Integration”, then “Climate FieldView”.

3 Select a “Grower.” Insert the Climate FieldView email account you want to import data into, then select “Save”.

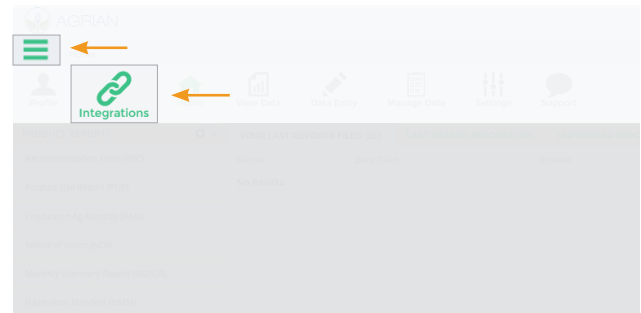

Note: Submitting a sharing key is optional. Your data from Echelon will be transferred to the Data Inbox in your www.climate.com account within an hour.

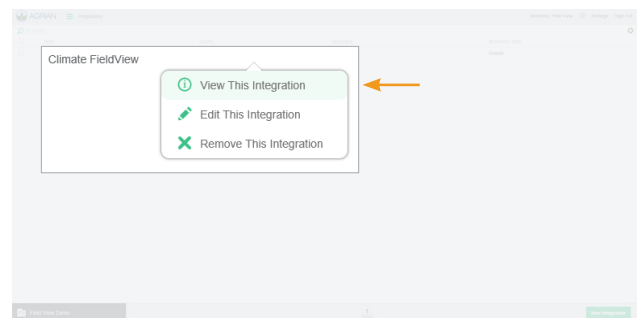

Transferring Field Boundaries from Echelon to Climate FieldView

Login to www.echelonag.com

1 Select the sidebar menu, then “Integrations”.

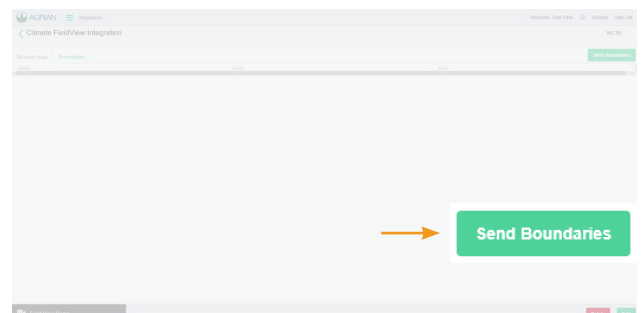

2 Left click on an integration. Select “View This Integration”.

3 Select “Send Boundaries”.

Your data from Echelon will now be transferred to the Data Inbox in your www.climate.com account within an hour.
