

Integrating Climate FieldView with Ag-Analytics®

This one-time integration allows you to connect your Climate FieldView account to your Ag-Analytics account. The integration allows your precision data and field boundaries to load in from Climate FieldView. Completing the integration can take as little as 5 minutes, and once completed, your data will be processed and ready for use in building profit maps and analysis in the ProfitLayers® interface.

How To Begin Your Integration

1. Visit the Integration Portal at <https://profit.ag/integrate>.

2. Review the Terms of Use and Privacy Policy, then select the check box to agree.
3. Select the Climate FieldView logo.
4. A new window will display. Enter your Climate FieldView account credentials, then log in.

Log in with FieldView

Create Account

5. Select the “Allow” button.

Log in with FieldView

CLIMATE FIELDVIEW

This website would like to:

- Retrieve application activities from FieldView
- Retrieve harvest activities from FieldView
- Retrieve planting activities from FieldView
- Retrieve farm organization information from FieldView
- Retrieve field information from FieldView
- Create and update fields in FieldView
- Retrieve basic account information from FieldView (such as name and email)
- Send prescriptions to FieldView

By clicking Allow, you allow this app and Climate FieldView to use your information in accordance with their respective [Terms of Use](#), [Privacy Policy](#) and [End User License Agreement](#).

Cancel Allow

6. The page will redirect to a sign-up portal, where you can sign up or sign into your Ag-Analytics account. There are several options based on situation.
 - a. "Email Signup" – Use this option to create an Ag-Analytics account using your email address, or if you already have an Ag-Analytics account.
 - b. "Google" – Use this option to create an Ag-Analytics account that is linked to your Google account.

7. After selecting an option, follow the relevant signup or sign-in process.
 - a. After selecting "Email Signup", complete the fields, then select "Create" to create your account.

Email Address
Please enter a valid email address.

New Password
The password must be between 8 and 64 characters.

Confirm New Password

Given Name

Last Name

City

State/Province

Country/Region

b. Alternatively, select “Sign In” to sign into your existing Ag-Analytics account.

c. After selecting “Google”, select your Google account to create your Ag-Analytics account with.

8. Once you create or sign into your Ag-Analytics account (covered in the previous step), the page will redirect to the ProfitLayers® interface. A pop-up page will show status updates to your integration.

Thanks for integrating it may take several minutes the first time you integrate or re-integrate.

Integration Status: Processing
