

EMS PRODUCTS & SOLUTIONS

Be prepared. Be well supplied.

**The products and the expertise to help you respond at your best.
You'll find it with Airgas Puritan Medical.**

In the on-demand world of Emergency Medical Services, having the right supplies and reliable equipment are essential for saving lives. That's why thousands of EMS providers around the country turn to Airgas Puritan Medical to keep them stocked with medical gases, oxygen equipment and safety supplies. We understand the special challenges of EMS better than any other gas supplier – in part, because we are much more than a supplier. Our trained sales and service technicians can also give you inventory management, supply chain efficiency, dependable delivery and compliance expertise so you can better focus on what you do best.

You'll find it with us.™

Medical Gas

Every medical gas production facility is registered with the FDA and all Airgas Puritan Medical gases are produced in accordance with their Good Manufacturing Practices (GMPs). Since thorough calibration and certification procedures are conducted in accord with

the highest national standards and pre-fill quality control inspections, your medical gas purity and consistency is guaranteed.

Oxygen Transfill Systems

Transfill System

Cost effective and safe filling of high pressure aluminum or steel oxygen cylinders. A wide range of transfill configurations are available. Contact your Airgas Medical Sales Representative for details.

Liberator™ EMS 20

The Caire Liberator EMS 20 was designed specifically for emergency transport applications. The unit offers a greater gas capacity to weight ratio, along with a low operating pressure of 50 PSIG. It replaces 5 M tanks or 2 1/2 H tanks and has a full weight of 92 lbs.

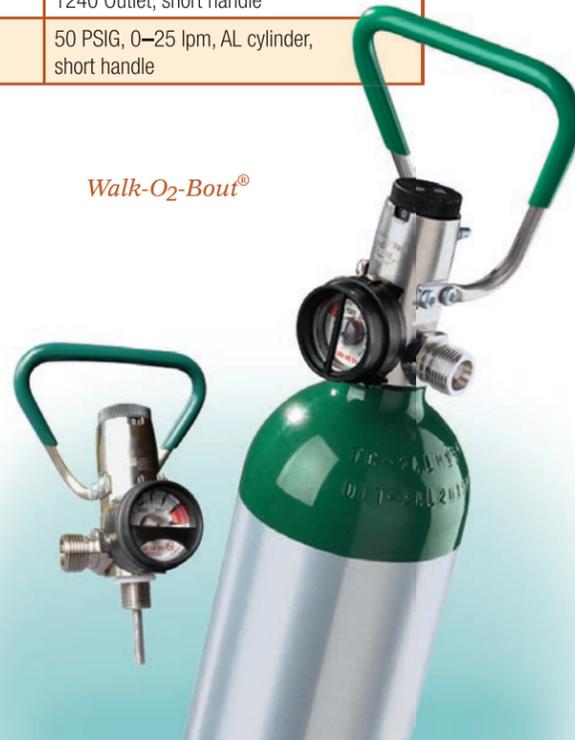

Part Number	Description
11854984	20 EMS Liberator Liquid oxygen system for ambulances
13139909	Meter EMS Remote Sensor (Inside content indicator)

EMS Walk-O₂-Bout®

An aluminum or steel cylinder with a fully integrated valve, regulator and handle that enables easy transport of small oxygen cylinders by First Responders. A short-handle model is available for a better fit inside ambulance or Stryker carts.

ARG Part Number	Description
REG 290799-06	50 PSIG, 0–25 lpm, AL cylinder, one DISS 1240 Outlet, regular handle
REG 290799-10	50 PSIG, 0–25 lpm, Steel cylinder, one DISS 1240 Outlet, regular handle
REG 290799-15	50 PSIG, 0–25 lpm, AL cylinder, one DISS 1240 Outlet, short handle
REG 290799-16	50 PSIG, 0–25 lpm, AL cylinder, short handle

Walk-O₂-Bout®

EMS Regulators

Fabricated of nickel-plated brass; Ambient operating temperature range of -20°F to 120°F, no matter the weather conditions these regulators perform. Anti-vibration locking device that meets the FAA requirements for all EMS regulators used on aircraft and helicopters; Simultaneous operation of all outlets; Supply pressure 500–2200 PSIG; Outlet pressure 16–70 PSIG.

Regulator

Part Number	Description
REG 290733-00	PMP 0–25 lpm nickel plated CGA 870 without DISS outlet fittings and adjustable flow barb fitting
REG 290739-00	PMP 0–25 lpm nickel plated CGA 870 with two DISS fittings, check valves and adjustable flow barb fitting
REG 290735-00	PMP 0–25 lpm nickel plated CGA 540 for H or M type Cylinders with two DISS outlet fittings, check valves and adjustable flow barb fitting

Cylinders

Airgas offers a wide variety of Aluminum and Steel cylinder types and sizes.

Medical aluminum cylinders are up to 25-40% lighter in weight than conventional steel cylinders. The cylinders have a brushed aluminum finish with clear coat protective finish. The cylinders come with the standard CGA 870 post valve. “On-Off” toggle handle CGA 870 valves may also be ordered for the cylinder.

D	Aluminum cyl/w std CGA 870 post valve; O ₂ capacity 14.64 cu. ft./415 liters
D	Aluminum cyl/w std CGA 870 toggle post valve; O ₂ capacity 14.64 cu. ft./415 liters
Jumbo D	Aluminum cyl/w std CGA 870 toggle post valve; O ₂ capacity 22.5 cu. cf./637 liters
E	Aluminum cyl/w std CGA 870 post valve; O ₂ capacity 24.08 cu. ft./682 liters
E	Aluminum cyl/w std CGA 870 toggle post valve; O ₂ capacity 24.08 cu. ft./682 liters
M	Aluminum cyl/w std CGA 540 valve & carrying handle; O ₂ capacity 123.5 cu. ft./3500 liters

Cylinders

Basic Brass-Sleeve Design Oxygen Regulators

Tough, Light Weight, durable oxygen regulators — Manufacturer lifetime limited warranty; 12 position flow control; bumper-protected contents gauge; Tested to ASTM G175; Supply pressure 200–2200 PSIG.

Regulator

Part Number	Description
OR87015MG	Mini 9.6 oz 0–15 lpm CGA 870 with adjustable flow and barb fitting 0/.12/0.5/1/1.5/2/3/4/6/8/10/15
OR87008MG	Mini 9.6 oz 0–8 lpm CGA 870 with adjustable flow and barb fitting 0/.12/0.5/1/1.5/2/3/4/6/8
OR87004MG	Mini Pediatric 9.6 oz 0–4 lpm CGA 870 with adjustable flow and barb fitting 0/.03/.06/.12/.25/.5/.75/1/1.5/2/3/4
OR54015G	Basic 0–15 lpm 1 lb 1.8 oz CGA 540 for H or M type Cylinders with adjustable flow and barb fitting 0/.12/0.5/1/1.5/2/3/4/6/8/10/15

Comfort Plus™ Cannulas

Designed with the patient's ease of fit and maximum comfort in mind, the Comfort Plus line of Cannulas are designed lightweight and clear to ensure a comfortable fit for long-term use. The curved nasal prongs enhance and promote alignment of the cannula to fit naturally on the patient's face, eliminating the irritating flap required by conventional style cannulas.

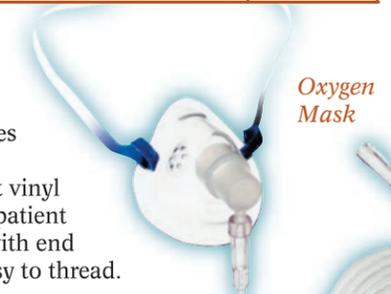

Cannula

Part Number	Description	Quantity
WMI0197	Comfort Plus Adult Soft Tip Cannula with 7' kink resistant tubing	50
WMI0187	Pediatric Soft Tip Cannula with 7' kink resistant tubing	50

Oxygen Masks

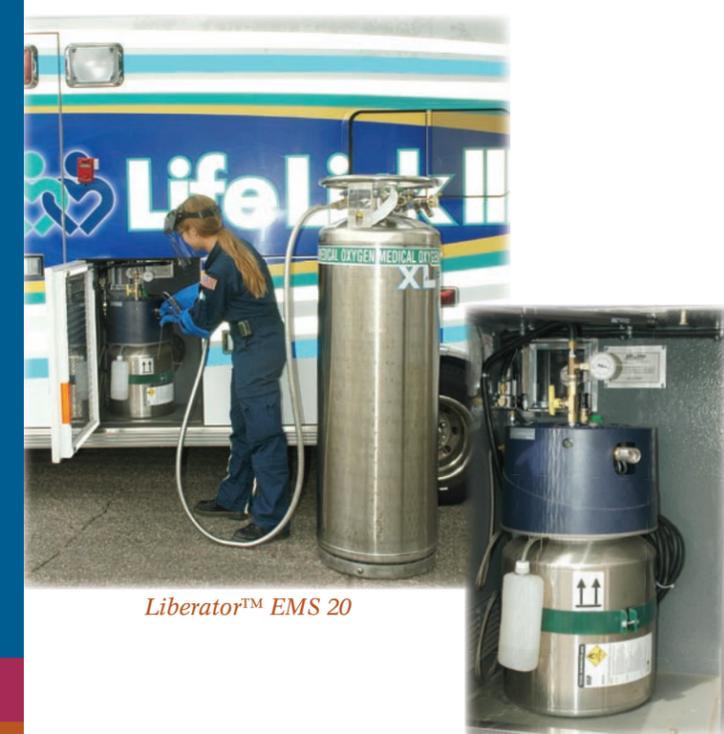

Swivel snout accommodates multiple patient positions. Transparent, latex free, soft vinyl mask allows clear view of patient assessment. Elastic strap with end caps are adjustable and easy to thread.

Oxygen Mask

Part Number	Description	Quantity
WMI0370	Adult Medium Concentration Mask with 7' kink resistant tubing	50
WMI0371	Pediatric Medium Concentration Mask with 7' kink resistant tubing	50
WMI0365	Adult non-rebreather, (high concentration, w/bag and safety vent) mask with 7' kink resistant tubing	50
WMI0366	Pediatric non-rebreather, (high concentration, w/bag and safety vent) mask with 7' kink resistant tubing	50

Liberator™ EMS 20

VixOne™

High output nebulizer which delivers medication quickly and efficiently. Ideal particle size (MMAD=2.7p). Very low dead volume (0.7cc). Latex free. Nebulizes in positions up to a 45 degree angle for patient comfort.

VixOne™

Part Number	Description	Quantity
WMI0207	Neb, universal tee, mouthpiece, 7' kink resistant tubing (no flex hose)	25
WMI0311	Pediatric w/mask and 7' kink resistant tubing	25
WMI0310	Adult w/mask and 7' kink resistant tubing	25

The LS4™ Super Sucker

An innovative device engineered for rapid removal of upper airway obstructions and aspirated material. Removes greater than 500cc of large debris within 5 seconds.

Part Number	Description	Quantity
WMI0531	LS4, 4' tubing w/sterile tracheal suction kit	10

Super Sucker

AMBU Manual Bag Mask Resuscitator

Designed for manual ventilation of adults. The bag is easily held by one hand and can be used for extended periods of time with little or no hand fatigue.

Part Number	Description
245-011000	AMBU Manual Resuscitator Bag with adult mask

AMBU Bag

Circulair®

Aerosol drug delivery system — the patented distensible drug reservoir minimizes waste while its variable resistor tailors treatment to individual pediatric/adult patient needs. Ideal for protocol based concentrated drug delivery resulting in enhanced productivity and time savings.

Circulair®

Part Number	Description	Quantity
WMI0272	Adult with attached HEPA filter with 7' tubing	25
WMI0321	Pediatric with mask and 7' kink resistant tubing	25
WMI0320	Adult with mask and 7' kink resistant tubing	25

PediNeb™

Designed to enhance delivery of aerosolized medication while reducing the apprehension encountered by young patients.

PediNeb™

Part Number	Description	Quantity
WMI0383	VixOne, Nebulizer Pedi-Neb w/flex tube extension, pacifier, 7' kink resistant tubing	12
WMI0382	VixOne Nebulizer, pacifier, 45 Degree Elbow & 7' kink resistant tubing	12
