Conveyance Systems: Elevators – Design, Safety, and Maintenance. *PEI (Professional Elevator Inspections)*

Course No. 44215

Unlock the fundamentals of conveyance systems by deep diving into this specialty subject.

This comprehensive training program will provide an in-depth understanding in the field of elevator design, installation, maintenance, technical and structural requirements, and the State’s expectations for operation and safety. Participants of this course will gain a thorough understanding of the operational principles, safety standards, and maintenance practices associated with elevator systems.

This training class offers .6 CEU’s towards certification renewal. A CEU certificate will be emailed to the email address on the sign in sheet. Mission Statement: The Colorado Association of Permit Technicians (CAPT) is dedicated to the improvement of building safety in areas relating to education, administration, interpretation, and enforcement of the permitting and code process.
