

KIT HOME BUILDERS WEST

Cascade Windows put life in the best light. We have built our reputation on superior performance, style and value. Just like our windows, Cascade's sliding patio doors offer a lifetime limited warranty. In addition all Kit Homes feature our Ec and Ec+ Low-E glass.

ENERGY STAR

In the average home, at least 40 percent of energy costs annually are spent on heating and cooling. Proper selection of windows and doors can significantly affect how much money it takes to keep our homes bright and comfortable. Look for the energy star label on all Cascade Windows and doors.

LOW-E GLASS

Our own specially coated Ec (Energy Comfort) and EC+ (Energy Comfort+) windows reflect outside heat in the summer and interior heat in the winter, reducing your air conditioning and heating requirements.

UV PROTECTION

Ultraviolet (UV) rays are the culprits responsible for much of the fading in your home. You need some sun block. Protect your carpets, furniture and fabrics almost 90% better than ordinary glass by adding Ec or Ec+ glass.

FIX A GLARING PROBLEM

Your days of squinting indoors are over. Reduce the bright glare of sunlight, without reducing the amount of light that bathes your home. The Low-E Coating on your Ec/Ec+ glass simply difuses light that passes through it.

WARM EDGE SPACER

Edgetech Super Spacer™ reduces condensation, reduces heat loss/gain through the glass, and greatly increases the integrity of the glass unit's seal. Look for Super Spacer™ on all Cascade patio doors.

WINPRO WIDE FRAME

Cascade offers a 3 1/4" frame depth with fusion-welded corners. This gives you beautiful, distinctive shadow lines and improved window stability. When the application requires, Cascade also offers a 2 3/4" frame.

Add that "French Door" feel to your home while enjoying the luxury of our renowned smooth sliding system. The C9700XL Wide-Rail Patio Door goes to extra lengths to satisfy. Available in standard widths. The C9730XL (3-lite wide rail door) is available in 12'0".

WINPRO SERIES PATIO DOOR

The making of a Cascade patio door requires extreme attention to details. Look what's inside.

- Rigid multi-chambered PVC extrusions providing structural integrity and high-sound and thermal insulation qualities.
- Precision mitered and heat-fusion welded corners.
- Integral vinyl pre-punched nailing flange for fast and efficient installation. Flush fin available upon request.
- High performance dual weather stripping minimizing air infiltration, reducing energy costs.
- Metal reinforced interlock, providing superior strength and rigidity.
- Flared interlocking profiles result in consistent and reliable operation and provides a tight seal.
- Heavy-duty lock and interior handle are standard on all units.
- Fully adjustable metal rollers provide smooth operation and reliable performance year after year.
- High performance glazing options include Low-E coatings, tints, solar-cool reflective glass, and argon gas.

The C9700XL comes standard with a heavy-duty extruded screen and a secondary lock. Standard with an upgraded keyed lock.

Lifetime limited warranty

Optional glass breakage warranty available. See Cascade Windows Lifetime warranty for details.
