

ComSignTrust™ Point Of Sale e-sign

e-Sign For Going Paperless

ComSignTrust™ digital signing solutions aren't just about digital signatures. They are about securing, automating and controlling all your document signing to make it so much more efficient and far more cost effective. ComSignTrust™ solution enables each user to e-sign documents of all types — invoices, agreements, diagrams, forms, applications, letters and more — interfacing with any application and any format of your choice.

ComSignTrust™ POS has been designed to meet the needs of service providers and businesses that require a comprehensive and modern signing tool to digitally sign orders and agreements at the Point Of Sale and make the customer experience a lot more comfortable and enjoyable.

When you deploy ComSignTrust™, all of the solution's benefits, especially ROI, start on day one.

Product brief

- ✓ Supports the interaction between clerk and customer in the Point Of Sale
- ✓ Offers guided digital signing process using a tablet
- ✓ Digital signatures serves as an authentication of the signer as well as an indicator that the received content has not been modified since it was signed
- ✓ Enables displaying selected document on tablet, document merging, zoom in/out
- ✓ Synchronized Annotations, scrolling, form filling, signing, marking selected fields
- ✓ Optional image attachments
- ✓ Uses tablet's idle wasted time in order to display advertisement
- ✓ Enables sending the signed document to the customer by email in the end of the process

ComSignTrust

Part of the Comda Group, a market leading IT Security Company since 1985. The group also includes Comsign, Israel's leading Certificate Authority, Comda, an IT Security Integration entity, and ComSignTrust, the digital signature solution company.
