

ComSignTrust™ GO – Mobile Signing Solution. Secure e-signing with your mobile

E-signing on mobile devices streamlines, simplifies and secures signature processes, while making your operation more efficient, cost effective and environment-friendly.

- ✓ With ComSignTrust™ Go users can open any PDF file or photograph any document, then simply sign it, save it and email it.
- ✓ Users can add any photograph they take or add a photo from the photo gallery, to the documents.
- ✓ The signed documents can be saved on the device or be uploaded to the cloud.

Benefits of our mobile signing app

- **Be The Mobile Office** – Sign documents anytime from anywhere.
- **Cost Effective** – Eliminates all paper-related costs by avoiding printing, signing, scanning and archiving documents.
- **Security** – Signed documents are sealed and signatures are encrypted for safety and security.
- **Increased Service Levels** – Convenient for signing customers and closing deals faster from anywhere.
- **Proof-of-delivery** – Signatures are time stamped and stored, making it perfect for proof-of-delivery services.
- **Photographic Proof** – Photos taken can be used as a proof and can be easily added to the signed document (receiving damaged goods, adding ID card, documentation of products or services that were given, etc.).
- **Pen-Like Experience** – Signatures instantly appear on the screen giving an authentic pen-like experience.
- **Environment Friendly (sustainable)** – Paperless and green.

ComsignTrust™ Go Key Features

- **Android native application** – works offline.
- **Signing options** - sign documents from folders on your device or use the device's camera to sign new documents.
- **Produces multi-page PDF** – add any photo to the document, the app will automatically create a multi-page PDF (with option to crop images).
- **Comments** – adding ink annotations.
- **Filling forms** (Checkboxes + TextBox + DropDown).
- **Share documents with others.**
- **Runs on any standard android tablet or smart phone.**

Effective

Secure

Anywhere, Anytime
