

Embodying the Cosmic Crystals

MORGANITE

Raquel SPENCER

Day 2

The power of Cosmic Morganite is surprising. We continue the clearing of distorted patterns as your physical body is being infused with this powerful frequency to release deep within your cells, organs and glands.

The frequency of Cosmic Morganite is commanding. The absolute knowing of the energy of Divine Love that it brings provides the strength to stand in a new level of personal empowerment.

Allow your body to surrender to this clearing of distorted patterns with confidence, while feeling the frequency of the Cosmic Morganite with an open heart and willingness to step into a new level of personal love.

I HIGHLY recommend taking an Epsom / sea salt / or baking soda bath after this activation, if possible. You are releasing physical toxins. Support your body in whatever way feels best to you.

Remember, your body is the vehicle for conscious expansion. The clearer the vehicle is, the clearer the signal you can receive.

Breathe and remember that you are Light.
