

Embodying the Cosmic Crystals MORGANITE

Raquel SPENCER

Day 5

As you expand and embody this upshifted crystalline frequency of Cosmic Morganite, you become a purer conduit for Divine Love in the world.

Cosmic Morganite sets the stage for a new experience of self-love to unfold. The frequency that you emanate into the quantum field rearranges your outer reality to match this new level of Light.

Allow distorted relationships to change, shift or simply disappear to open up space within your life for healthy, appropriate, nurturing and honoring relationships to emerge.

Call forth the Cosmic frequency of Morganite if you feel unstable or fearful in any way, as this may block the enfoldment of higher and more appropriate expressions of self-love and Divine love to manifest.

If you do have toxic relationships that need to shift, simply call forth the frequency of Cosmic Morganite to infuse into every aspect of the relationship(s), clearing the energy for an upshifted and expanded state of love to emerge. This will assist everyone to align to a higher level of Light.

Breathe and remember that you are Light.
