

Embodying the Cosmic Crystals

MORGANITE

Raquel SPENCER

Day 7

Cosmic Morganite feels like a kick-ass personal trainer to help you raise your self-esteem, self-confidence and self-love.

This activation infuses a HUGE amount of Cosmic Morganite into your fields, your home and your life.

Upshifting your reality, Cosmic Morganite is a pre-cursor to embodying a whole new level of Light into your body. Amplifying more of who you are, as a multidimensional master, into your everyday life, this frequency is essential to embodying more Cosmic Love and Light!

I recommend a daily practice of infusing Cosmic Morganite into your matrix to keep you aligned with this new level of self-love and confidence.

It's time to be your most vibrant, healthy, confident, loving self. Whew! Own It!

Breathe and remember that you are Light.
