## Day 6

Transmission: 34:28

Music: [Unseen Magic - Sean Maher](#)

This initiation opens up and triggers gateways and Light pathways within your physical body to spark memory from your very first incarnation into physical form within this galaxy.

We begin aligning many pertinent aspects of your own unique energy. This calibration may cause you to feel like you are spinning upside down or to experience extreme dizziness or disorientation as your energetic systems are shifted quickly.

The ancient language and vocal tones ignite codes within your body allowing for deep primordial wisdom to flow. Your original incarnation into form within this source system was adept at creation, as the connection to source energy was maintained at a higher level.

Connections in your higher mind to bridge Light wisdom from the conscious and subconscious are activated. You may experience brief moments where you do not feel solid, human or in 3D/5D physicality. Spontaneous moments of limitless and spaciousness actually serve to shift your perceptions and allow easier access to the stillness and expanded nature needed to truly access the zero point within.

The frequency of the ether, void, still point within your body is upshifting. The experiences you have during the “practice” of accessing the internal ether assist the personality with dropping limiting beliefs around your ability to create in this reality. Allow a deeper understanding of quantum energy/mechanics to emerge into your awareness. With the appropriate skills, Light quotient and integrity, any and all things are possible.

Continue to nurture your body as the “Temple of Light” it truly is. Eat as healthy as possible, spend time in nature, practice acts of self-love and rest and rejuvenate your mind, body and spirit.
