You are a powerful co-creator. The conscious and subconscious aspects of yourself are always creating your reality. As the Cosmic Air frequency of Light continues to anchor into your energetic matrix and Divine Vehicle, the depth of your perception regarding your part in creating your reality expands.

Each thought, conscious or unconscious, interacts with the complex supercomputer that is your personal “matrix”. As you continue the path of awakening, allow the higher frequencies of Light to align your system to amplify the clarity of your mind and focus.

Working with the Architects of the Divine Vehicle of Light, a deeper remembrance is sparked to fine tune the interface between higher understandings and concepts of manifestation.

The ancient language triggers cellular memory to ignite your conscious ability to recognize your own participation and power within co-creation.

Pay attention to your thoughts and emotions and recognize how quickly reality shifts to accommodate that which you are emanating. This can be an illuminating or frightening reality check.

Set your intention each and every day to allow your higher mind and higher self to take full command over that which you create in your daily life.

Breathe, connect to your cosmic/higher self and co-create a rich and amazing life.
