

## Day 4 Activation 25:11

With the supportive energies of the Divine Mother, Quan Yin, the Grandmothers of Mu and many other Divine Feminine frequencies of Light, this activation continues the repair of the circuitry and nervous system from your first breath.

The Cosmic Platinum frequency opens up portals and pathways to expand your connection beyond the Milky Way. Through the portal of Arcturus, the energetic connections to other sojourns throughout the known universe are expanded.

It's time to truly step into and beyond your galactic connections to gather knowledge, wisdom and soul energy / fragments to enhance your conscious awareness of who you truly are.

Cosmic Platinum unlocks and opens up the ancestral connections, well beyond the human DNA, firing the geocodes held in your living library from before "the fall."

How does that benefit your daily life here and now? This will expand your perceptions and give you deeper "glimpses" into the illusion of this holographic experience and, more importantly, empower you to step more fully into your power and knowledge of how to create.

You are a spark of the Divine, source energy experiencing physicality in a dense and disconnected reality. It's not about learning, it's about remembering and having your body capable of utilizing the energy, wisdom and Light to break free into your sovereignty.
