

# Time To Move Cootie Catcher

## Directions:

Print out cootie catcher and cut around the red square.

With right side up, fold "Run" corner over to "Hop" corner. Crease and open back up.

Fold "Skip" corner over to "March" corner. Crease and open back up.

Turn over paper so it is now printed side down.

Fold all four corners to the center of the square. (Making a smaller square.)

Flip the small square back over so the pictures are face down.

Again, fold all four corners to the center of the square. (Numbers should be face up now.)

Fold any two sides together so that the numbers are on the inside, pictures on the outside.

Slide your thumbs and fingers under the four different flaps.

Rotate your hands and bring your thumbs and index fingers together.

(It might take a little adjusting, but it should expand.) Open and Play!
