

SVG Cut File TOU

This cut file was designed by thecraftingchicks.com and is only for personal use. No product made using this design may be sold. This design may not be resold. Please direct any interested to thecraftingchicks.com where they may obtain their own file.

SVG files are designed to be used with both Cricut and Silhouette machines. You will need to upload the SVG file into the software before using. And remember to always mirror iron-on or heat transfer vinyl before cutting.
